EDUCATION

B.S. in Information Systems & Operations Management

George Mason University

📍 Fairfax, Virginia, United States

EXPERIENCE

Full Stack Developer

Freeny Group

📅 10/2020 - Present 📍 Falls Church, VA

The Freeny Group provides the ultimate transportation experience, be it from school, to work, or across the country they will get you there.

- Oversaw the end-to-end development of Freeny Driving School's online education dashboard and e-commerce store using Django-based full-stack web technologies.
- Successfully launched the platform within budget constraints while achieving a 50% increase in student enrollment within the first six months.
- Developed and implemented cross-browser testing automation framework, reducing software testing time by 75% across 10+ front-end web applications and sass, resulting in faster releases.

Freelance Developer

Freelancer

📅 04/2020 - Present 📍 Arlington, VA

From acquiring clients to managing to finalizing deliverables I manage my day-to-day in a professional and meaningful manner as any other business would.

- Collaborated with 20+ local businesses during the Covid-19 lockdown to develop and implement online business strategies, resulting in a 50% increase in revenue for each client.
- Developed and tested prototypes using agile methodology resulting in a 30% increase in client satisfaction rates.
- Set up Google Analytics to track website traffic and user behavior, resulting in a 20% increase in user engagement within the first month and identifying key areas for improvement.

Enrollment & Help Desk Analyst

Pearson VUE

📅 03/2020 - 01/2021 📍 Remote

Pearson VUE delivers high-stakes exams empowering professions to certify and license individuals who safeguard and advance their communities across the globe.

- Resolved technical issues for 40+ clients daily on multiple channels, with an average resolution time of 10 minutes, maintaining a customer satisfaction rate of 95%.
- Escalated complex technical problems to senior technicians with a 100% success rate in resolving within service level agreements, minimizing downtime for users.
